

Accommodating Accommodations Exercise Participant Testimonials

Found below are testimonials from several of the hospitals that participated in a previous Accommodating Accommodations Exercise.

Valley Medical Center – Renton – Washington

I think the ONX System / Caduceus Shield exercise series may be one of the best mechanisms to leverage wider participation in small scale drills. Opportunities to customize some areas or have regionally based events might be useful.

John Randolph Medical Center – Hopewell – Virginia

Everything was developed to make it easy for a facility to review and revise their plan.

Tuality Healthcare – Hillsboro – Oregon

Ok, I don't want to be blunt, but I really haven't worked with you guys. I'm on the west coast. I've invited my IMT to attend free seminars in the past and some were a real waste of time and I felt my credibility sink. Unfortunately the time / date of this tabletop was during a major standing meeting of nursing leadership at our hospital. In looking to who to invite, I saw most calendars full. So I only invited a couple people. This was a great tabletop. I wish more people could have attended. Perhaps you need to advertise your good evaluations from to State Public Health Preparedness representatives etc., so that potential attendees won't think it's more of a sales pitch than an educational tabletop. Thanks so much for making it the latter.

HealthSouth Rehabilitation Hospital of Northeastern Virginia – Aldie – Virginia

Great learning opportunity!

Huntington Hospital – Huntington – New York

This was a great exercise and we will participate in it again using different situations.

Cheshire Medical Center / Dartmouth-Hitchcock Keene – Keene – New Hampshire

The exercise was excellent; it provided a great opportunity to communicate about something that could indeed happen.

St Mary's Hospital – Grand Junction – Colorado

Several ideas for improvement were discussed during the exercise. The sheltering tools provided will greatly assist this process. All in all a very well planned and conducted tabletop exercise.

Jersey Shore University Medical Center – Neptune – New Jersey

Great learning experience!

Boulder Community Hospital – Boulder – Colorado

The fact that our hospital administration has rescheduled this same exercise off-line in order that we are able to bring to light more of the items that need to be integrated into the "Staff Sheltering" concept speaks to the fact that it was very successful exercise for us.

Cheshire Medical Center / Dartmouth-Hitchcock Keene – Keene – New Hampshire

Thank you for providing this opportunity for us to participate. I would like to participate in other ONX System exercises in the future as they become available.

Aspirus Wausau Hospital – Wausau – Wisconsin

This was new for us to participate and we enjoyed the exercise.

Thank you. We will look into future exercises.

Avita Health System / Bucyrus Community Hospital – Bucyrus – Ohio

First let me say the exercise last week was very well written and presented. Our team, though small and without any administration present (holiday tea at the same time) enjoyed the exercise. It provoked some lively conversations and sparked some interesting ideas.

Lafayette General Medical Center – Lafayette – Louisiana

Thank you so much for the opportunity to participate in this exercise. It was a really great experience.

Huntington Hospital – Huntington – New York

Excellent Exercise!

Manatee Memorial Hospital – Bradenton – Florida

This ONX System format was excellent for a tabletop drill.

Central Baptist Hospital – Lexington – Kentucky

With each inject we were able to identify items that we need to fix with our plan. This exercise was well planned and well designed. The scenarios were realistic. Thank You for the opportunity to participate.

Lafayette General Medical Center – Lafayette – Louisiana

Very useful exercise! It helped us see our strengths and more importantly our weaknesses.

King's Daughters Medical Center – Brookhaven – Mississippi

This was a good exercise and got us thinking about the things we need to improve upon.

HealthSouth Rehabilitation Hospital of Northeastern Virginia – Aldie – Virginia

Great exercise! We have some work to do to be better prepared. However, we now have a structure of how to conduct ourselves in the event of a disaster.

Doctor's Memorial Hospital – Perry – Florida

Thank you very much for allowing us to participate.

St Mary's Hospital – Grand Junction – Colorado

We enjoyed the exercise and found it very useful.

Divine Savior Healthcare – Portage – WI

Great Exercise!

St Mary's Hospital – Grand Junction – Colorado

We liked the exercise and feel it went very well.

Divine Savior Healthcare – Portage – WI

I thought this exercise provided value insight to identified needs and process improvement in crisis situations.
